

Synway's IP phones redefine high-end communication with all-round excellence, standing out in design, performance, security, and efficiency:

● Unmatched All-Round Experience

Sleek design, versatile functionality, and tailored solutions for high-end and critical scenarios set an industry benchmark, delivering irreplaceable value.

● Professional-Grade Audio Quality

Equipped with the DSPG audio chip—standard in leading European and American IP phones—ensuring stable, clear calls via hardware-level optimization.

● Comprehensive Security

Beyond firewalls, built-in network storm handling resists DOS attacks, preventing data theft, toll fraud, and downtime for robust protection.

● Ultra-Fast Performance

Core systems use extensive compile language, boosting chip efficiency for millisecond responses to calls and status changes, eliminating delays.

● HD Noise Cancellation

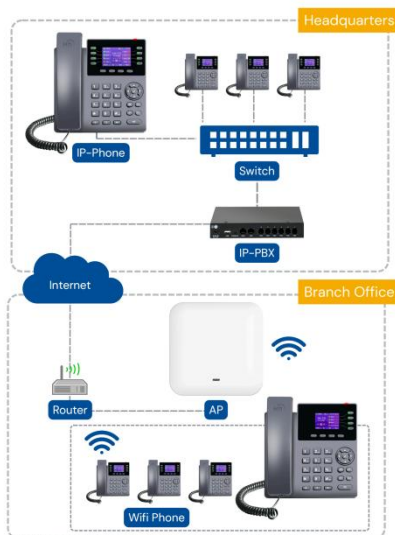

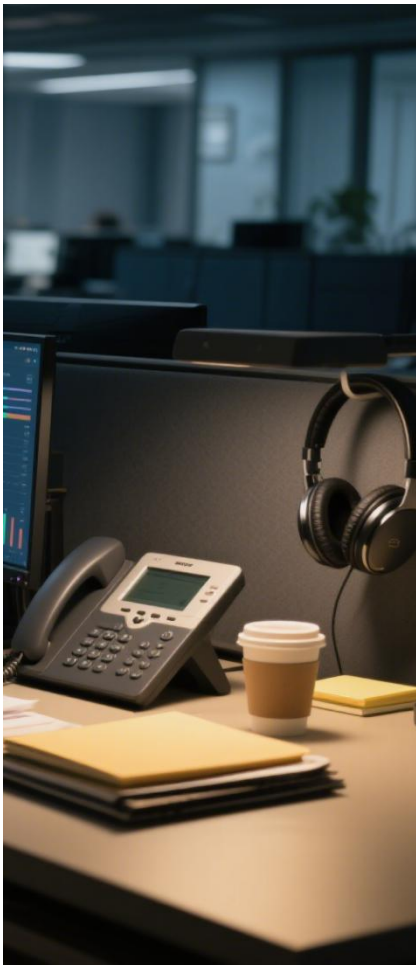

Integrated HD voice, Synway's noise cancellation, and Acoustic Shield technology filter background interference, ensuring clarity even in noisy environments.

● Effortless Large-Scale Deployment

Synway's Auto Provisioning and Boot mechanisms enable zero-touch batch deployment and unified management, slashing maintenance efforts.

Typical Application: Unified Communication for HQ & Branches

- One-Click Cross-Site Collaboration: Seamless voice/video/chat across;
- HQ and branches with single-number reachability, 50% Lower Telecom Costs: On-net calls between sites via private SIP;
- Trunking, bypassing PSTN charges. Mobile-First Workforce Enablement; Softphone apps with enterprise-grade security for remote/hybrid employees; Plug-and-Play Branch Deployment;
- Zero-touch branch office setup (<30 mins). Centralized Management + Local Survivability: Cloud control panel;
- Failover to local PBX during WAN outages;

Synway's IP phones combine refined aesthetics and enterprise-grade technology. Designed for hotels, enterprises, and critical industries, they ensure reliable, clear, and professional communication.

Essential Series

SWP-102M/G/W

- 2 SIP accounts, 2 lines
- 132x64 pixel 2.4" LCD, backlit display
- PoE integrated
- 5-way audio conferencing
- Connects with DSS extension module

Executive Series

SWP-304M/G/W

- 4 SIP accounts, 4 lines
- 320x240 pixels, 2.4-inch color LCD display
- PoE integrated
- 5-way audio conferencing
- Connects with DSS extension module

Premier Series

SWP-508M/G/W

- 8 SIP accounts, 8 lines
- 320x240 pixels, 2.8-inch color LCD display
- PoE integrated
- 5-way audio conferencing
- Connects with DSS extension module

Elite Series

SWP-710G

- 10 SIP accounts, 40 programmable keys
- 4.3-inch color IPS LCD
- Opus HD audio codec
- Dual Gigabit ports with PoE and USB for WiFi or recording
- OpenVPN, TLS & SRTP encryption

Hotel Phone

SWP-H01M

- 8 SIP accounts, 8 lines
- 320x240 pixels, 2.8-inch color LCD display
- Dual-switched 10/100 Mbps ports, integrated PoE
- 5-way audio conferencing

Compact Phone

SWP-H02M

- Compact, elegant design with full features
- 10 one-touch speed dials
- 2 programmable DSS keys
- Dual-band Wi-Fi (2.4G/5G)
- Desktop or wall-mount installation

Agent Phone

SWP-C01M

- 132x64 pixel, 3 inch LCD backlit display
- Integrated PoE
- Dual network ports; RJ9 headset jack supported;
- 5-way audio conferencing

Wifi Phone

SWP-P02W

- 8 SIP accounts, 8 lines
- 320x240 pixels, 2.8-inch color LCD display
- Dual-switched 10/100 Mbps ports, integrated Wifi & PoE
- 5-way audio conferencing
- Connects with DSS extension module
